SCHULTER, OK 74460-0205**

APPLICATION FOR CONSTRUCTION TAP

ACCOUNT # _____

I, _____, do hereby make an application to Rural Water District #1 for a **construction tap only** for the following property:

I hereby agree that the water will not be plumbed to any dwelling for household use until a **Certification for a Septic System** has been approved by the Department of Environmental Quality and is on file in your office.

I understand that these are the provisions of the Rural Water District's permit from the Oklahoma State Department of Health (Department of Environmental Quality) and that violation of these provisions are grounds for **automatic discontinuance of water service** from the Rural Water District #1 and enforcement proceedings by the Department of Environmental Quality for abatement.

I understand and agree that this agreement is valid for thirty (30) days. To extend this Agreement beyond thirty (30) days, a new Application for Construction Tap must be completed or service will be discontinued.
